LAND BARON M'CANDLESS, HIS GETTINGS AND HOLDINGS

While Link the Land Baron has been at work on a scheme to get votes by promising Government land which he does not own and cannot control, to the Hawaiians, he has been steadily grasping kuleanas to add to his private barony of 6000 acres. Most of the other land barons he attacks have had their holdings from the Government but Link has made a specialty of getting his from the natives who he now says he desires to help. Following is the record of his Kuleana acquisitions:

MEMORANDUM OF CONVEYANCES TO L. L. McCANDLESS, FROM INDEXES OF RECORDS, REGISTRY OFFICE, HONOLULU, T. H.

Table with columns: Bk. Pg. Name. Date. Land, Etc. Location. Contains numerous entries of land conveyances.

MORTGAGES AND ASSIGNMENTS.

101 233 Mendonca, J. P. Aug. 28, '86, Land at Mokuieia. Waialua

(Continued on page seven.)

NOT QUITE SURE. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

"Mr. Hankinson," said the mother of the young woman to the youth whom she suspected of an ambition to become a member of the family, "have you ever been baptized?" "Once, I think," he answered hesitatingly.—Chicago Tribune.

NO DANGER. Don't be afraid to give Chamberlain's Cough Remedy to your children. It is intended especially for coughs, colds, croup and whooping cough, and it is the best medicine made for these diseases. What makes it safe is that it contains no opium. Children like it.

TO TAKE RICHES FROM SOUTH SEA

AMERICAN CONSUL TELLS OF NEW INDUSTRY ON ISLAND OF THE SOCIETY GROUP.

SAN FRANCISCO, October 17.—Dr. Julius D. Dreher, United States Consul at Papeete, who has been on a visit to his home in Scranton, Pa., will sail today on the Mariposa for his post of duty. During his two years residence in the Islands Dr. Dreher has gathered volumes of interesting information about the commercial and industrial advantages to be found in the undeveloped resources of the Society and other groups in the South Pacific.

While in San Francisco the Consul and Mrs. Dreher have been guests of Eli T. Sheppard of 1654 Taylor street, an old friend, who has been much interested in insular affairs.

Before his appointment to the Consular Service by President Roosevelt, Dr. Dreher was president of Roanoke College, Virginia, for twenty-five years. His experience and familiarity with higher branches of learning have made him an invaluable officer of the Government, and his reports made to the Department of State are as accurate as text books.

The coming industry of the Islands, he says, will be the development of phosphate deposits, new beds of which are being constantly discovered. On the island of Makatea alone it is estimated that there are 10,000,000 tons. An English company has been organized to mine this island, but is experiencing some difficulty on account of the adverse claim of a French company. As soon as this dispute is adjusted the work will be vigorously pushed forward. On Ocean island and Pleasant island, outlying atolls of the Gilbert group, the deposit of phosphates is estimated at 50,000,000 tons. The Consul prophesies that the United States will share in the development of this industry.

At present Papeete is cut off from telegraphic communication with the world, but with the advent of a wireless system this disadvantage will be overcome. A movement is now on foot to connect Australia and New Zealand with the Cook, New Hebrides, Fiji, Solomon and Society groups.

"The Consulate of Tahiti," said Dr. Dreher, "was established about seventy years ago. It embraces not only the Society Islands, but the Marquesas, Tuamotu, Gambier and Austral groups, 109 in all, scattered over an area of the South Seas, extending 1300 miles from north to south and 1500 miles from east to west."

Dr. Dreher is particularly proud of the new Consulate erected last year by the Government, and one of the few buildings built on foreign soil which is owned by Uncle Sam.

"It is a beautiful frame building of two stories," he said, "with eight rooms of good size and five smaller ones. It is regarded as the best and handsomest building in Tahiti, and has most of the modern conveniences. It is near the business part of the town, the Government buildings and the Post office, and within 100 feet of the bay of Papeete."
